About

Rashtrasant Tukdoji Mahavidyalaya Chimur

Routes of development were discovered quite late in Chimur, the town which witnessed a glorious revolution on 16th August,1942 flared up from the bhajans of Rashtrasant Tukodji Maharaj– a revolution that burned down the oppressive British imperial rule in Chimur and brought the bliss of independence for the first time ever in India.

We are always proud of our patriotic ancestors who scarified their lives for the freedom of India. To mark another revolutionary chapter with the blessings from Rashtrasant Tukdoji Maharaj , activists of Shri Gurudeo Seva Mandal established Gandhi Seva Shikshan Samiti in 1952 with the noble prospect of enlightening the region with the sublime light of knowledge.

In 1972 Gandhi Seva Shikshan Samiti laid down the foundation stone of Rashtrasant Tukdoji College, Chimur to offer higher education to the poor and underprivileged people . Computer lab, gym, big playground, a fully-fledged library, experienced professors, efficient and active non-teaching staff, NSS, NCC and encouragement by the Management devoted to service all contribute to the consistent and unflinching development of our institute.

Our management also runs a primary and high school. Our college is affiliated to Gondwana University Gadchiroli and recognized under section 2f and 12B of UGC.

About

Ambedkarite History Congress

Ambedkarite History Congress is national level Association of Ambedkarite. It aims at developing Ambedkarite historiography. The aim of history should be unfolding story of human freedom. It should record the rise and fall of the human civilization. It is observed that Indian History writing has influenced by Brahmenical tradition and ethnocentric way of writing which did not recorded the social history of India. It is

said that, "No Document, No History." Depressed classes were not recorded in ancient and medieval India by so called upper class historians because they were influenced by Brahmenical hegemony. The historical roots of debramanising history can be traced from anti-caste movement of shramanic tradition. A tradition of resistance and equity propounded by shramans, a long line of differentiated heterodoxy, who were non-vedic and antagonist to the brahmanical religion and politics. The shramans rejected the scriptural and brahmanical authority, karmakanda and Varnashram dhunna. Most importantly, they stood against the brahmanical scheme of disenfranchising masses from their human and property rights. According to Braj Ranjan Mani "A parallel Movement ranged against the Vedic- Brahmanic tradition of domination and discrimination can be traced from the time of the Buddha and Mahavira in the sixth century BC. The Vedic Brahmanic religion and philosophy was basically envisioned to establish a permanent system of Brahmanic rule where the shudras or the masses, would be kept in perpetual Ignorance and subjugation." Process of debrahmanising Indian history has its roots in Ancient and medieval India .

Phule's contribution to Indian history stands remarkable as he put forth true history. Rewriting History and Indian Mythology was the basis of his writing. Dr. Babasaheb Ambedkar played an absolute role in the process of De-elitization of Indian history in India. Dr. Ambedkar's thoughts as reflected in his writings and speeches have significant importance in tracing the history and growth of social thought in India.

Ambedkarite History Congress has developed features of Ambedkarite Historiography which are Rewriting history, Emphasizing social history, Writing factual history, Documentation of History of marginalized communities. Approximately 450 lectures on Buddha, Phule, Shahu, Ambedkarite ideology are being organised by AHC in online mode. Many Ambedkarite scholars across the world are associated with AHC. Video Lectures of approximately 120 GB data is already uploaded on Facebook page of Ambedkarite History Congress. Approximately four lakh people have seen these lectures on social media which is a remarkable achievement. It is one of the largest digital video data in India pertaining to Ambedkarite ideology. Ambedkarite Times is a News letter of AHC which is published every month in Marathi, Hindi and English language. Those who forget history can not create History is said by Dr. Babasaheb Ambedkar. AHC is publishing and digitalising Ambedkarite Historiography.

CONCEPT OF CONFERENCE :

The socio – political situation of nineteenth century India was undemocratic with practices like

Untouchability, Chaturvarnya and Caste system. These challenges were an obstacle for an egalitarian society. There was none to look after the political interests of the millions of the untouchables. Their existence was, neglected not only by the British Government but also by the emerging political forces. The growth of political awakening and activism, in fact, did not recognize the problem of social segregation of the untouchables. Dr. Babasaheb Ambedkar played a decisive role in transforming and uplifting the depressed classes of the society.

Dr. Babasaheb Ambedkar was the emancipator of the untouchables, a champion of the depressed classes, far-sighted statesman, a champion for women's rights, a legal luminary, a constitutional expert, a true nationalist and a staunch protagonist of 'Democracy'. He channelized all his dynamism towards the building of a democratic society and polity in India, on the principles of liberty, equality and fraternity.

Dr. Babasaheb Ambedkar paved the path for social democracy. He defines democracy as a form and method of Government whereby revolutionary changes in the economic and social life of people were brought about without bloodshed. His concept of democracy aims at the welfare of people. He is of the opinion that democracy is a mode of associated living. The roots of democracy are to be searched in social relationship in terms of associated life between the people who form the society. He incorporated the democratic principles and provisions in the Constitution of India.

Dr. Babasaheb Ambedkar economic perspectives aimed at the welfare of the masses. He formulated the labour welfare policy. During his tenure as Member of Governor Generals Executive Council. His economic views are instrumental in bringing about the economic changes. His policy of water management, agrarian reforms and industrial reforms are landmark decisions. Educational Perspectives of Ambedkarism propagated spread of Education amongst the depressed classes. He was influenced by western scholars and their liberal ideas. He considered education as means of overall development of human being.

Dr. Babasaheb Ambedkar's conversion to Buddhism is epoch making event in the religious history of India. It had rooted the seeds of democracy in India and has social, political, religious, cultural implications. In Buddha and his Dhamma he clarified his concept of Buddhism. Prime motive of conversion was to create congenial atmosphere for the healthy growth of democracy.

Perspectives of Ambedkarism needs to be studied to understand the vision of Dr. Babasaheb Ambedkar on various issues. Perspective of Ambedkarism are multi-dimensional such as social, political, constitutional, legal religious, cultural, economic. About the Workshop :

Creation and dissemination of knowledge through research is one of the core functions of the higher learning institutions. Apart from generating new knowledge, the higher learning institutions, particularly the universities also have the responsibility of training the intellectual manpower required for all sectors of the society. Quality of manpower is the most important factor for producing good quality researchers. With the passage of time, research as an activity has not received due attention in higher education institutions. Research is considered as a prerequisite for obtaining the degree only. Lack of adequate infrastructure, resource constraints, lack of motivation coupled with a few other factors do not encourage the meritorious students to take up research as a career option. As a result, the quality of the research conducted in higher education institutions has projected a declining trend. This has raised a concern among the academic community, social thinkers and policy makers.

Amongst all other factors, training of the researchers is the most crucial one. At present, in most of the higher education institutions, except a few disciplines, there is no adequate provision of training on research methodology. The research students often depend upon the supervisor/guide for even finding a suitable research problem. They also find it difficult to proceed further independently. To improve the situation there is a need for providing training on research methodology to the young scholars. Research is the systematic and objective process of gathering, recording and analysing data for taking appropriate & meaningful decisions. It connotes patient study and scientific investment, wherein the researcher takes a more careful look at data to discover all that could be known more deeply about the subject under study. Applied research facilitates managerial decision-making and reduces uncertainty. To keep pace with the recent advancement in any discipline, one has to be well versed with the latest developments in research methodology. Keeping in view the importance of research methodology, Workshop on Research Methodology & Data Analysis (RMDA 2022) aims to explore the basic dimensions of research and the concomitant need for participants to rethink about the assumptions that underlie historic paradigms of research in the field of management. The workshop is designed to offer the participants with hands-on approach to conduct research. On completion of the workshop, participants are likely to have developed the skills to review the literature, develop hypotheses, frame research design, identify sampling techniques and comprehend the role and relevance of the tools for data collection and analysis. The seven-day workshop will expose the participants to a brief theoretical as well as practical inputs. The participants are expected to bring their research problem & data if they have to work on during the workshop and at the end, they would perform data analysis independently and would make a presentation before the class.

Key Highlights :

- i) Hands-on practical sessions on data handling, analysis & deriving preliminary results
- ii) Practical sessions with suitable illustrations and demonstrations
- iii) Coverage of Analysis Techniques
- iv) Time Series Analysis Techniques
- v) Exposure of Data Analysis Techniques by SPSS
- vi) Discussion on the interpretations of results and presentation

Objectives :
